

Biologist

NATURAL RESOURCES CONSERVATION SERVICE

Biologist

As an NRCS biologist, you'll spend most of your time onsite working with private landowners, other agencies, and units of government. You'll provide technical support and advice on fish and wildlife habitat development or restoration. You'll suggest ways to manage fish and wildlife populations, restore streams and wetlands, and improve habitat.

Qualifications: A bachelor's degree or higher in the biological sciences, agriculture, natural resource management, chemistry, or other related disciplines appropriate to the position.
