

# CELL, MOLECULAR & DEVELOPMENTAL BIOLOGY

## AT THE UNIVERSITY OF CALIFORNIA, RIVERSIDE

[CMDB.UCR.EDU](http://CMDB.UCR.EDU)

# A PLACE FOR DISCOVERY

- Over 70 faculty sponsoring research programs in basic, applied, medical and agricultural sciences
- Unique opportunities to work with animal, insect, microbial and plant model systems
- State-of-the-art research facilities including light and electron microscopy centers, genomics institute with capabilities for nucleotide and peptide synthesis, stem cell core facility and sophisticated computer visualization center
- Launching point for careers in industry, academia, research marketing and more

## DEGREES

The Cell, Molecular and Developmental Biology Graduate Program awards M.S. and Ph.D. degrees. Students have the opportunity to conduct research in areas of specialization such as:

- Bioengineering
- Chemical cell biology
- Developmental biology
- Environmental cell biology
- Neuroscience
- Regulation of gene expression
- Stem cell biology

## FINANCIAL AND GRANT SUPPORT

All Ph.D. students in the department receive generous financial support through fellowships, research assistantships, training grants, and teaching assistantships.
