

A photograph of two women in blue lab coats examining a green plant in a laboratory. The woman on the left is smiling and looking at the plant, while the woman on the right is looking at the same plant with a neutral expression. The background shows laboratory equipment and a clean, bright environment.

PLANT BIOLOGY

AT THE UNIVERSITY OF CALIFORNIA, RIVERSIDE

PLANTBIOLOGY.UCR.EDU

WE INVITE YOU TO GROW

- The Plant Biology Graduate Program at UC Riverside is one of the largest and most prestigious in the nation. Graduate training is offered from over 50 faculty and cooperative extension specialists, including six members of the National Academy of Sciences.
- The broad range of disciplines represented in the program provides our students holistic training in plant biology and exceptional opportunities for interdisciplinary research projects.
- Program resources include an on-site experimental station, a diversity of local ecosystems, and state-of-the-art genomics, metabolomics, and imaging facilities.

DEGREES

The Plant Biology Graduate Program offers M.S. and Ph.D. degrees. Students have the opportunity to conduct research in the following areas:

- Agricultural plant biology
- Cellular, molecular, and developmental biology
- Ecology, evolution, and systematics
- Genetics, genomics, and bioinformatics
- Synthetic and translational plant biology

FINANCIAL AND GRANT SUPPORT

All Ph.D. students are fully supported through fellowships offered through the Graduate Division, teaching and research assistantships, training grants, and external fellowships.
